

This warning is for owners of the T500RS model of pedals ONLY.

Before ordering please check the following information to determine the version of T500 pedals, most versions are completely compatible with the ELC-5 load cell model manufactured by us. If you have the wrong model indicated in the pictures below you will need to buy the T3PA-pro version of the Thrustmaster Conical or Spring brake mod, you only need the main bracket from the Trustmaster mod.
